

Hexagon Socket 1/2in Drive 19mm

Product Images

Product Code: G84-1363

Short Description

These Hexagon Sockets are professional, high quality metric sockets, forged from chrome vanadium steel which is hardened, tempered and satin chrome plated for corrosion protection.

1/2in Square Drive is the most popular drive size used in the UK and Ireland, due to its strength and durability. Faithfull sockets have a hexagon design that gives an accurate fit on both nuts and bolts and the chamfered end allows easy nut location and entry.

The Hexagon Socket has the following specifications:

Drive: 1/2 inch square.

Size: 19mm Hexagon
