

# Mills Bobbin-Mate

## Product Images

Product Code: S00-9750

## Short Description

The sustainable way of dispensing drawrope!

The Bobbin-Mate is a patented low cost drawrope dispenser for use with Mills Drawrope supplied on a bobbin.

Comprising 2 octagonal flanges connected by an aluminium central spindle, the Bobbin-Mate, allows drawrope with a bore of over 50mm to be quickly dispensed easily from floor level, via A frame (S13-1200), drawrope dispenser (S13-1239) or from a Mills Drum-Mate (S00-9770), when use in conjunction with a Drum-Mate Spike (S00-9751).

The Bobbin-Mate also benefits from a large carry handle and the octagonal shape of the flanges ensure the rope does not move around when in transit.
