
Conecut Taper Drill HSS 16-30mm

Product Images

Product Code: N47-1239

Short Description

Used for precision burr-free drilling without a pilot drill in plastics and sheet metals up to 2mm thick. Suitable for non-ferrous metals, steel sheeting and plastics.

Also available in 3-14mm and 6-20mm sizes.

Description

The Conecut is a versatile hole-cutting tool for rapid drilling and enlarging holes in thin materials up to 2mm thick.

Designed for industrial applications, the diameter of the hole increases as the cone cut is advanced into the material, providing infinitely variable sizes.

For use in sheet steel, non-ferrous metals, plastics, Formica and plywood.

The conical shape of the tool enables any size of hole to be drilled between the bottom and the top of the taper. When drilling metals always use a coolant.

Size Range: 16 - 30.5mm. Chuck: 3/8in / 10mm.

Also available in 3-14mm and 6-20mm sizes.
