

Planet GSD-503 Gigabit Ethernet Desktop Switch 5 Port

Product Images

Product Code: C04-1265

Short Description

The Planet GSD-503 provides a 10Gbps non-blocking switch fabric as well as an 4k MAC address table, supporting 802.3x full duplex flow control and also wire-speed packet transfer performance without the risk of packet loss.

- 4k MAC address table
- 9KB Jumbo frame
- Store and forward switch architecture
- Flow control to eliminate packet loss
- MAC address learning and ageing
- Auto MDI/MDIX on each port
- Green networking technology for energy saving
