

Shovel Holer 54" - FibreMaxPRO

Product Images

Product Code: S83-0739

Short Description

Two handed scissor action especially designed for digging telegraph and fence post holes, it removes soil more quickly and easily than a regular spade.

Description

Two handed scissor action especially designed for digging telegraph and fence post holes, it removes soil more quickly and easily than a regular spade. Produces deep, narrow vertical side holes requiring less concrete to fill. This tool is effectively two linked round nose spades that pull soil into the centre allowing it to be lifted between the two heads.

FibreMaxPRO - The Ultimate in strength of contractors tools. Developed to provide almost unbreakable tool handles, the solid core 28mm diameter resin bonded glass fibres produce great flexibility and superior strength, far exceeding the requirements of BS3388.

Handles: 54" / 1370mm

Blade size: 8" x 26"
