

Mills Rigging Head 1A

Product Images

Product Code: S83-0781

Short Description

For installing rigging lines in hollow poles.

This device is used for threading cable up the inside of hollow telegraph poles. It is used by screwing the head on to Rod Duct No.2 and pushing it up the inside of the telegraph pole.

A weight attached to a length of rope drops down the outside of the pole, leaving the pole threaded by rope. Cable can then be fed through.

Ref: 126687
