
Clamp Dropwire 10A

Product Images

Product Code: S83-2746

Short Description

Stainless steel dead end clamp for fixing drop wire at pole or premises' termination points.

Length 430mm

Description

A coated metallic spiral clamp approximately 430 mm long. Used to attach either a Dropwire 10B or 12 to a Pole ring or any dropwire fixing.

The clamp is designed to be wrapped around the dropwire, not the wire around the clamp.

Ref: 016443
