Product Images

Product Code: S83-9321

Short Description

The Grip Coupling 1A is a simple 3 metre x 13mm fibre rod to assist in straightening 25mm subduct No5, prior to installation.

Description

The Grip Coupling 1A is a simple 3 metre x 13mm fibre rod to assist in straightening 25mm subduct No5, prior to installation.

The full length of the rod is inserted and secured into the 25mm subduct using its tapered thread fixing.

Once secured the S83-2638 'Grip Coupling 1A' can then be attached to a duct rod No1 (S83-1446) or duct rod No2 (S83-0711) and the subduct easily introduced and pulled into the main duct.

Formerly S83-2638
