
Grip Insulator Pole

Product Images

Product Code: S83-2782

Short Description

For terminating Insulator Stay 2 to poles where Cable PET or PETAL Aerial is used on power crossings.
Also for terminating Insulator Stay 2 to poles where stays have insulators inserted.

Description

Multi stranded "U" shaped clamp formed by laying 6 galvanised high tensile steel wires, each 2.00mm diameter in a spiral wrap formation, with an internal coating of aluminium oxide.

Supplied with 2 "O" clips 9-11 mm diameter and used for attaching an Insulator Stay 2 to the suspension wire of the cable.

Approximate length 430mm.
