
Grip Wire Suspension No 1 Pk10

Product Images

Product Code: S83-2785

Short Description

Grip Wire Suspension No.1 is used to terminate Cable PET or PETAL Aerial incorporating single strand suspension wire, except at power crossings. Supplied in pack of 10.

Description

Straight grip formed by laying 5 galvanised high tensile steel wires, each 1.25mm diameter, in a spiral wrap formation, with an internal coating of aluminium oxide. Centre mark only, BLACK.

Approximate length 430mm.

Used for a full termination of Lightweight Aerial Cable except at Power Crossings.

Also used to extend Catenary wires.

Supplied in a pack of 10.
