

# Grip Wire Suspension No 2

**Product Images**

**Product Code: S83-2786**

## Short Description

---

Grip Wire Suspension No.2 is for terminating all sizes of Cable PET and Aerial Cable except those that incorporate Single Strand Suspension Wire.

## Description

---

Straight grip formed by laying 5 galvanised high tensile steel wires, each 3.93mm diameter, in a spiral wrap formation, with an internal coating of aluminium oxide.

Strand end marker and cross over mark both RED.

Used for a full termination of Heavyweight Aerial Cables except at Power Crossings. Also used to extend Catenary wires.

Approximate length 940mm.
