

Extension Reel 240v 13 Amp 10m

Product Images

Product Code: P85-7700

Short Description

10 metre long, 240V 13A cassette extension lead with twin sockets.

Description

Compact cassette reel that not only ensures that the cable is fully protected while in storage or transit but also safe while in use, using a thermal overload protection system to prevent overheating damaging the cable.

The cable reel also features a patented British designed dual drum, superfast tangle free rewind system and has four shuttered plug sockets, a BS approved plug and a back grip handle with a rotating winding knob making it easy to wind and to use.

Manufactured to British Standard BS EN 61242 and ASTA certified

Specifications:

Voltage: 240 Volt.

Fully Unwound: 3kW/13amp.

Fully Wound: 1kW/4amp.
