
Engineering Adhesive (Cobra Repairs) 3ml

Product Images

Product Code: R00-3505

Short Description

High Strength Retainer Adhesive – Ideal for cobra repairs, whether joiner or bullet ends. A very high strength anaerobic retaining compound for use when a permanent bond is required between closely fitting parts.

For use when parts are subject to stress, such as locking bushings and sleeves onto shafts and housings.

Features

- High strength grade
- Colour: Green
- Viscosity: Medium
- Service Temperature Range: -55 to +150°C
- Handling Time: 5 minutes at ambient conditions
- Full Cure: 24 hours

Supplied in a 3ml bottle.
