

RidgeGear Belt Safety 11C Kit - Large

Product Images

Product Code: S83-0889

Short Description

The Ridgegear specialist harness kit is designed for the telephone utilities, and comprises;

- S83-4035 RGH11 Mutlipurpose Harness tested to BSEN 358 and 361,
- S50-0656 RGP11 Work Positioning Belt
- S50-0657 RGL11 Full Arrest Lanyard

In the interests of safety, this item is non-returnable and non-refundable (unless faulty)

Description

The Ridgegear specialist harness kit is designed for the telephone utilities, and comprises;

- S83-4035 RGH11 Mutlipurpose Harness tested to BSEN 358 and 361, **Size L Large** (see datasheet for size guide)
- S50-0656 RGP11 Work Positioning Belt
- S50-0657 RGL11 Full Arrest Lanyard

The **RGH 11 C Multipurpose Utility Harness** features a twin layer moulded water repellent back pad support, incorporating internal cushioning and ribbing for extra comfort and sturdy spinal support with front, rear and side 'D' ring attachment points.

Curved steel leg adjusters for quick leg adjustments, the 75mm wide specially angled sit strap provides optimum comfort.

- Front and rear Ds for fall arrest and rescue
- Work positioning side 'D's allow for hands free working
- New design of front chest 'D' mounted on O rings eliminates webbing stress areas and even

distribution of forces in the event of a fall

- Webbing tails are eliminated from the front of the harness
- Curved stainless steel leg adjusters provide fast and effective non slip adjustment
- Specially angled 75mm wide sit strap provides added comfort in the event of a fall or during rescue
- Water repellent webbing highly resistant to water, oil, dirt & grease stains
- Tightly woven construction for added abrasion resistance
- Colour coordinated straps to ensure fast and correct fitting of leg straps
- Back pad high visibility reflecting strip
- Extra cross bar on side 'D's ensures 'D' remains stationary and outwardly cranked to provide simple and effective one handed hook attachment.

The **RGP11 Work Positioning Belt** has been specially designed with a controlled release adjuster buckle to ensure safe operation and adjustment.

- Double layer abrasion pad protects the strap from damage
- Karabiner connected to nylon thimble for ease of operation
- Hook and loop pad sewn to abrasion pad loop to allow for temporary attachment of pole strap to harness during climbing

The **RGL11 Full Arrest Lanyard** is fully approved and used extensively by major utility companies

- It can be attached direct to a suitable anchorage point or can be choked around a pole or similar structure
- The triple action karabiner provides quick and safe extra safe connection to the harness D ring
- The double action Karabiner on the outer end allows for quick connection to approved EN795 anchor points
- Nylon Kernmantle static rope has high resistance to abrasion
- It is capable of forces in excess of 40KN and meets the requirements of EN 1891

In the interests of safety, this item is non-returnable and non-refundable (unless faulty)
