

CommScope FIST GC02 External Fibre Closure

Product Images

Product Code: FISTGC02

Short Description

CommScope's generic closure FIST-GCO2 is an environmentally sealed enclosure for the FIST fibre management system. The closure is a single-ended design made of a thermoplastic material. The base and dome are sealed with a clamp (or latches) and an O-ring system. One oval entry port for looped (uncut) cable and 6 or 16 round ports for single cable entry/exit are provided in the base. (8 round or 6 + 1 oval port for GCO2-FX version).

FIST-GCO2 has provision for all cable termination and sealing requirements. Cable seals are manufactured from heat-shrinkable or gel material.

The universal mounting system profiles provide the foundation for mounting combinations of SOSA2 and/or SASA2 modules, which consist of a modular groove plate and trays.
