

CommScope BUDI Splice with FIST

Product Images

Product Code: BUDISPLFIST

Short Description

CommScope BUDI Splice with FIST Building Distribution Enclosure for Splice Applications.

BUDI is a product range of compact, wall mountable fibre enclosures for indoor and outdoor use. They are specifically designed for fast deployment and easy customer connection. The FIST management system is a proven CommScope technology for optimal fibre organisation and splicing. Available with splicing and/or patching capabilities, high connector density, small and larger footprints, the BUDI product range offers flexible solutions for a wide range of applications in the access network.

Please see datasheet and ordering guide to ascertain the part numbers for the particular variant and configuration you require and contact sales for a quote.

Benefits:

- Easy to install
- Compact and flexible design
- Extensive product range
- Proven FIST fibre management system

Features:

- Designed to operate in category C (controlled), category G (outdoor ground level) and category A (aerial) as characterized by IEC 61753-1
- Fire retardant, LSZH materials
- UV stable material for outdoor above ground use
- Multiple cable ports available
- Bottom cable seal blocks are wrap-around
- UMS (Universal Mounting System) available to mount FIST-SOSA2 splice modules
- Allows integration of passive optical components
- Small and large footprints
- Multiple accessories available to terminate and seal different cable types
- Removable enclosure lid
- QUAREO Scan Assist compatible
