

# CommScope BUDI Splice and Patch with FIST

Product Images

Product Code: BUDISPLPATFIST

## Short Description

---

CommScope BUDI Splice/Patch with FIST Building Distribution Enclosure for Splice/Patch Applications.

BUDI is a product range of compact, wall mountable fibre enclosures for indoor and outdoor use. They are specifically designed for fast deployment and easy customer connection. The FIST management system is a proven CommScope technology for optimal fibre organisation and splicing. In combination with a patch panel, this system offers ultimate flexibility.

Available with splicing and/or patching capabilities, high connector density, small and larger footprints, the BUDI product range offers flexible solutions for a wide range of applications in the access network.

**Please see datasheet and ordering guide to ascertain the part numbers for the particular variant and configuration you require and contact sales for a quote.**

### Benefits:

- Easy to install
- Compact and flexible design
- Fast customer connection
- Extensive product range
- Proven FIST fibre management system

### Features:

- Designed to operate in category C (controlled), category G (outdoor ground level) and category A (aerial) as characterized by IEC 61753-1
- Fire retardant, LSZH materials
- UV stable material for outdoor above ground use
- Multiple cable ports available
- Bottom cable seal blocks are wrap-around
- UMS (Universal Mounting System) available to mount single element/single circuit trays splice trays
- Compatible with pre-connectorised Mini-Breakout cable
- Allows integration of passive optical components
- Small and large footprints
- Multiple accessories available to terminate and seal different cable types
- Removable enclosure lid
- QUAREO Scan Assist compatible

## Description

---

CommScope BUDI Splice/Patch with FIST Building Distribution Enclosure for Splice/Patch Applications.

BUDI is a product range of compact, wall mountable fibre enclosures for indoor and outdoor use. They are specifically designed for fast deployment and easy customer connection. The FIST management system is a proven CommScope technology for optimal fibre organisation and splicing. In combination

with a patch panel, this system offers ultimate flexibility.

Available with splicing and/or patching capabilities, high connector density, small and larger footprints, the BUDI product range offers flexible solutions for a wide range of applications in the access network.

**Please see datasheet and ordering guide to ascertain the part numbers for the particular variant and configuration you require and contact sales for a quote.**
