

CommScope FIST-GPS2 Generic Splice Patch Shelf

Product Images

Product Code: FIST-GPS2

Short Description

CommScope FIST-GPS2 Generic Splice Patch Shelf

The CommScope Generic Splice/Patch Shelf, FIST-GPS2 is a mechanical shelf assembly for the FIST fibre management system in a rack environment.

The FIST-GPS2 is typically used in conjunction with FIST splice and patch trays (FIST-GPST-12).

Suitable for:

- Patching only, using patch cords, connectorised break-out or intra-facility cable
- Splicing loose tube cable, non-connectorised intra-facility or break-out cable to pigtails and patching these pigtails to patch cords
- Splitters can be integrated
- Can be installed in FIST racks and other 19" or metric (ETSI) racks

Features

- Available in 4 different heights(44, 88, 125 and 167 mm)
- Kits to attach cables at the side or the back of the shelf are available
- Optional jumper overlength storage facility
- Full patching capability on the tray and between the trays of one shelf
- Wraparound side panel and pigtail guide for easy repatching (only for 88, 125 and 167 mm version)
