

Soldering Iron (UK Plug)

Product Images

Product Code: D70-6000

Short Description

A lightweight general purpose 25 watt soldering iron with heat resistant handle supplied complete 13amp 240v UK Plug and 2mm tip. The soldering iron is supplied complete with a hot iron rest.

A working temperature of 380 degrees centigrade makes the iron ideal for working on circuit boards, and general electrical soldering repairs. Replacement 2mm tips can be ordered under part number D70-5007.
