

Mills Knife Pocket No.3 with Back Lock

Product Images

Product Code: N12-6549

Short Description

Specifically designed for the telecommunication industry this traditional linesman folding pocket knife

has been upgraded to feature a special 'back lock' which needs to be depressed to release and close the blade. With the addition of this safety feature, this knife replaces the knife pocket No 2 and is now approved for use by Openreach.

The pocket knife has a 60mm stainless curved pruning blade housed in a yellow ABS handle.

Formerly N12-7957.

Ref: 115027
