No.8 x 1.1/2 inch Countersunk Pozi Self Tapping Screw Pk 200

Product Images

Product Code: R07-2216

Short Description

Self tapping screws are supplied in boxes of 200 and normally used with sheet metal and plastics.

This variant has a countersunk head with a pozidriv pattern drive. The countersunk head is typically used in conjunction with a countersunk hole providing a flush, snag free fit.

As the name suggests, this type of screw forms its own thread as it is installed into a pre-drilled hole.
