

No.8 x 1.1/2 inch Panhead Pozi Self Tapping Screw Pk 200

Product Images

Product Code: R07-2220

Short Description

Self tapping screws are sold in boxes of 200, and normally used with sheet metal and plastics.

This variant has a round head with a pozidriv pattern drive.

As the name suggests, this type of screw forms its own thread as it is installed into a pre-drilled hole.

Description

Self tapping screws are sold in boxes of 200, and normally used as with sheet metal and plastics.

This variant has a round head with a pozidriv pattern drive.

As the name suggests, this type of screw forms its own thread as it is installed into a pre-drilled hole.
