No.8 x 3/4 inch Panhead Pozi Wood Screw Pk 200

Product Images

Product Code: R07-2235

Short Description

Zinc plated pozi drive round head woodscrews, sold in boxes of 200.

Suitable for general applications into softwoods and various hardwoods. With the exception of major diameters and threads, these panhead screws are designed and manufactured to BS1210 standards.

The single starting thread has a 25 degree sharp point for quick starting and thread acceptance. The parallel shank has 60 degree twin-threads and makes for a fast insertion speed and good pull out resistance.

Made from C10-18 steel and plated in zinc to between 3-5 microns. The surface is hardened to prevent torque shearing and the softer core gives improved ductility.
