Short Description

Two handed scissor action especially designed for digging telegraph and fence post holes, it removes

1

soil more quickly and easily than a regular spade.

Manufacturer Part Code POSTFGINS54

Description

Two handed scissor action especially designed for digging telegraph and fence post holes, it removes soil more quickly and easily than a regular spade. Produces deep, narrow vertical side holes requiring less concrete to fill. This tool is effectively two linked round nose spades that pull soil into the centre allowing it to be lifted between the two heads.

Shocksafe - A range of insulated contractors tools providing full conformity to the exacting specifications of BS8020:Tools for Live Working. BS8020:2002 demands full adherence to detailed manufacturing and testing procedures for safe working practices to be maintained by the user when working on or in close proximity to live conductor cables. Every single tool is flash tested to 10,000 Volts before being uniquely numbered and the issue of a certificate, unique to each item. This ensures total traceability and a guarantee of safety to the user in a potentially dangerous live-working environment.

Handles: 54" / 1370mm

Blade size: 8" x 26"

Scissor Action
