

Cable Cutter 210mm - 50mm 1000V Insulated

Product Images

Product Code: H87-6471

Short Description

Cable Cutter 210mm/50mm²

For copper and aluminium cables only.

Specially designed for cutting and stripping conductor before cable lug is applied. After cutting, the lug is easily applied to the conductor end because the conductor retains its rounded shape.

- Single handed operation
- Specially tempered tool steel
- Sharp, tempered precision cut blades
- Professional multi-coated insulation
