
Ideal Multi Fibre Stripper

Product Images

Product Code: E00-5878

Short Description

A precision clothes peg style stripper that is very compact and simple to use. The adjustable blades can be set for any depth to help ensure nick-free stripping on a variety of coaxial cables including twisted pair, loose tube, tightly wrapped stranded cable, CATV, CB Antenna cable, SO, SJ, SJT with a diameter 3.2mm – 5.6mm (1/8" to 7/32) . The stripper is supplied with one round and three straight blades. In addition the stripper can be used for circumferential and longitudinal stripping of fibre cables with a diameter of between 3.2mm – 5.6mm (1/8" to 7/32)

Also known as a clothes peg stripper
