

Honeywell BW GasAlert MicroClip X3 STD 4 Gas Detector LEL(F) O2 H2S CO Yellow

Product Images

Product Code: C00-5971

Short Description

GasAlertMicroClip X3 GDU is a slim and compact portable gas detector that provides a simplified solution to multi-gas monitoring

Description

The GasAlertMicroClip X3 GDU from BW Technologies by Honeywell, delivers an extended level of reliability in portable multi-gas detection at an affordable price.

With a life expectancy of five years and a 3 year warranty on electronics, battery and sensors, the detector simultaneously monitors 4 gases, including oxygen, hydrogen sulfide, carbon monoxide and combustibles (LEL).

The GasAlertMicroClip X3 has an all-new oxygen sensor that lasts the life of the detector, delivering continued, accurate performance with no sensor-replacement costs providing a superior cost of ownership that minimises maintenance and maximises up time.

Thanks to Honeywell's reliable lithium polymer battery, the GasAlertMicroClip X3 is guaranteed to run for at least a 12-hour shift even in extremely cold temperatures. All with no impact on the sensing of hydrogen, acetylene and other combustibles at the lower explosive limit.

It has an IP68 rating, ensuring complete protection against dust, as well as immersion in 1.2 metres of water for up to 45 minutes.

The GasAlertMicroClip X3 is engineered for ease of use, serving as your reliable companion without weighing you down. Compact, lightweight and easy to handle with one-button operation.

Each Multigas Microclip X3 monitor comes **complete with a car charger and 3 year warranty.**
