# Mills Measuring Wheel

## Product Images

**Product Code: S00-6671**

## Short Description

Ideal for the precision measurement of roads, pavements or land up to a distance of 9999.9 metres. This distance measuring surveyors wheel has a folding handle with retaining clip making it easy to store, and further benefits from a quick retractable foot stand.

### Product Features:

- Long distance measuring wheel with foldable handle
- Perfect for surveyors, builders and cabling installers
- One person operation: automatically records measurements as you walk, simply press the "Reset" button and start walking
- Counter adds when moving forward and subtracts when reversing
- Strong, foldable tubular steel handle with retaining clip
- Clear and easy to read

- Wheel Diameter: 31.8cm (12.5")
- Overall Length: 104cm
- Weight: Approx 2.3kg
