

Tensioning Tool for Stainless Steel Cable Ties

Product Images

Product Code: S00-5632

Short Description

This application tool is designed for installing heavy duty stainless steel cable ties from 4.5 - 12.3mm strap width. The tensioning strength can be adjusted while pulling the trigger. The tool is easy to handle and far more reliable than trying to tension the ties by hand.

- Tough metal tool
- Operator controlled tensioning
- Cut off by pulling the hand lever
