
Stool Folding Jointers Mk2

Product Images

Product Code: S13-4455

Short Description

Height 39cm with a seat size of 40cm x 28.5cm and tested to 150kg

Description

The Mk2 Jointers Stool has been designed in conjunction with a major UK telecom utility and reflects the changing height and weight of the average adult jointer and is an upgraded version of the traditional 'Stool Folding'.

The stool is tested to 150kg and is manufactured from 2mm thick 16mm diameter tubing, which has been butt welded, and retains a flat bottom to prevent the product rocking or becoming unstable during use.

The seat cloth is now thicker and supported by additional webbing and triple stitching. The stool also has two 3.5mm welded link safety chains.

Height 39cm with a seat size of 40cm x 28.5cm

Formerly S00-8418
