

MAPP Gas Cylinder for Superfire 2

Product Images

Product Code: S99-7387

Short Description

Special gas mix for high-performance soldering work. Flame temperatures up to 2,700 °C and 35 % faster than propane.

Key Features

- Extremely high flame temperature, utmost burning performance and guaranteed short working times
- Guaranteed constant top torch performance
- Easy to use
- Increased user safety through the sandwich valves and aluminium mono-block cylinder
- Longer periods of use

MAPP® is a registered trademark of Messer Group GmbH, Bad Soden.
