## RidgeGear RTLK1 Kinetic™ Tool Lanyard with Choke Loop

## **Product Images**

Product Code: S00-7568

## **Short Description**

The RTLK1 is a Kinetic<sup>™</sup> twin tool lanyard with a choke loop for tool attachment. It is suitable for tools up

to 10kg in weight.

Kinetic<sup>™</sup> is a unique webbing specially designed and developed to reduce the potentially devestating shock involved in the event of a fall. It was originally developed for RidgeGear fall arrest lanyards but the principle is exactly the same and equally important in the event of a falling tool.

A Kinetic<sup>™</sup> tool lanyard significantly reduces the risk of a dropped tool dragging the user off a platform and, because the deployed distance is less than the shock pack tool lanyard, it can reduce the risk below, too.

Length: 1.25 metres Web material: 25mm / 20mm water repellent polyester Webbing strength: > 1000kg Tool attachment: 210mm choke loop

\*Karabiners are shown for illustrative purposes only and are sold separately

## Description
