

Radiodetection SPX Flexitrace 50m

Product Images

Product Code: S00-7590

Short Description

The FlexiTrace reel holds 164'(50m) of small diameter rod. The rod itself can be energised by a Radiodetection transmitter* or Genny and inserted into pipes as small as 12mm.

It is used with a Radiodetection locator or C.A.T to find and trace small diameter plastic pipes etc.

Unlike using a sonde with a Flexrod, the entire length of the Flexitrace can be detected from above ground.
