## **Description**

The Polemate range of products and accessories have been specifically designed in conjunction with telecom engineers to assist field operational staff with the installation of telecommunication equipment. The Polemate system comprises a pole-mounting base unit to which splicing trays and cable reel stands can quickly and easily be attached providing a stable platform whilst on site.

The foundation of the Polemate system is this Polemate Base Unit which comprises a 50mm wide x 1200mm long webbing ratchet strap and a pole back plate, which can be simply ratcheted to the desired height on the pole.

Once mounted on the pole, various other related Polemate products may be utlised such as the:

- Splicer's Worktray
- General Worktray
- CBT Arm

A pack of three Rubber Wedge Spacers (<u>S83-7623</u>) are available as an accessory, which can be used to prevent compression marks and avoid damage to vertically routed copper cables.
