
Mills Polemate / Pitmate CBT Arm

Product Images

Product Code: S83-7624

Short Description

A specialist 500mm long bracket for use with the installation and controlled de-reeling of CBT Cable Reel Assemblies up to a diameter of 830mm.

The arm can be easily clip into the Polemate Base Unit & Strap ([S83-7622](#)) for overhead applications or The Pitmate Mobra Arm Bracket ([S83-7626](#)) for underground applications.

The CBT Arm System allows the reel to be unreeled in a controlled manor due the interence fit of the spindle flanges.
