

Prysmian Gland Wrench

Product Images

Product Code: XJTSC02320

Short Description

The gland spanner is used to tighten the cable glands used for circular port entry.

The spanner has a flat profile on one end and a cupped profile on the other end.

The cupped profile is used to tighten or loosen a gland already installed into the joint in cases where

additional cable entry is required

Description

The gland spanner is used to tighten the cable glands used for circular port entry.

The spanner has a flat profile on one end and a cupped profile on the other end.

The cupped profile is used to tighten or loosen a gland already installed into the joint in cases where additional cable entry is required
