

Foresters Bowsaw 530mm (21in)

Product Images

Product Code: N70-7651

Short Description

The Countryman Foresters Bowsaw provides excellent cutting performance.

Its sharp taper design allows ease of access amongst branches and undergrowth. The tubular steel frame has a lever tensioner allowing easy blade replacement and a soft-grip handle complete with plastic finger guard.

Supplied with two blades; a 'peg' tooth blade for use with dry wood and a 'raker' tooth blade for use with wet wood.

Double-ground, induction hardened teeth provide ultra-sharp cutting edges for prolonged life.

Specification: Blade Length: 530mm (21in).
