

Mills Adjustable Pole Cover

Product Images

Product Code: S00-7656

Short Description

The new Mills Adjustable Pole Cover is a cost conscious, simple and effective triangular cover designed to provide shelter to installation engineers working on poles.

Ideal for use with the extensive S83-7622 Mills Polemate range, the Pole Cover can be installed, using the hook and loop ties on to almost all poles at any height and comprises a basic 3 piece plastic tubular frame with reinforced PVC cover.

The fully extended size is approximately 990mm wide X 850mm deep X 710mm high.

The Pole Cover weighs less than 2.5 Kg, and is supplied with instructions in a handy drawstring storage bag
