

Clarke CFP11F Portable 5hp Petrol Engine Driven Compressor

Product Images

Product Code: S00-4363

Short Description

The CFP11F is an especially compact, lightweight and portable Honda engine powered air compressor suitable for site work and especially useful in awkward locations. Ideal for use where no mains power supply may be available. Delivering high air output relative to size, it can be used for paint spraying, inflating, nailing, stapling and powering various other air tools.

The air compressor pump has a highly durable cast iron cylinder. The engine is Euro 5 compliant meeting EU/2016/1628 regulations, which means improved economy and efficiency whilst lowering emissions as well as including oil alert.

Specifications

Lightweight, compact and portable design

Honda 4.8HP 4-Stroke petrol engine with easy start recoil

7.8cfm air displacement. 3.2 Litre tubular frame air receiver

7 bar maximum working pressure

Conforms to latest European Noise Directive and Euro 5 Emission standards

Easy to load and transport by car

Dimensions: (LWH) 380x490x470mm. Weight 26.4kg
