

Fusion U Tape Measure 0-67U 3m

Product Images

Product Code: K70-7663

Short Description

With a 13mm wide dual scaled blade, measuring 0-67U and 0-3 metres for cabinet height location assessment

Description

The Fusion 'U' Tape Measure is an essential new product allowing the installer to quickly survey data, server and AV cabinet rack locations to easily identify the correct sized unit for the job.

The tape measure has an integral belt clip, a 13mm wide dual scaled blade, measuring 0-67U and 0-3 metres and can be locked at any length.

They are made in a white shell making them ideal for customers' own logo branding (MOQ 1000 units for personalised branding - Please contact sales for further details).

Printing charges may apply.
