Product Images

Product Code: J53-2032

Short Description

Pry Bar Set containing three sizes of bar to help pry, lift, position and align machinery and parts into

place.

Description

Pry Bar Set containing three sizes of bar to help pry, lift, position and align machinery and parts into place.

Each bar has a heavy-duty square shaft with an angled tip design to provide an extra leverage point when working in narrow or confined spaces and feature a sharpened chisel tip that can be easily slid into tight spaces to separate parts.

The large PVC handles provide a positive grip to help protect and keep your hands comfortable when applying a high leverage.

These pry bars are useful for many small dismantling applications.
