

Mills Heavy Duty Toolbox 570mm

Product Images

Product Code: B70-8209

Short Description

Ideal for professional and trade use, this Mills toolbox is constructed from a combination of tough high impact plastic with heavy duty bright yellow steel body. A pull out tote tray allows for the storage of smaller items and the lid incorporates a stainless steel groove section which is ideal for resting work such as pipes or trunking prior to cutting.

The toolbox also benefits from a soft grip handle and can be secured by the use of two double latches and padlock eye hole. The heavy duty construction of the box also means it can be used as a step.

Dimensions: 570mm x 250mm x 220mm

Max load capacity: 20kg
