

Tempo Ruggedised Launch Box 500M SC/APC SC/UPC

Product Images

Product Code: C00-1152

Short Description

LC-500 Fibre Launch Box is a 500 metre launch cable that can be applied to each end of a fibre under test to characterise the input & output connectors. Troubleshoot the input connector & the initial fibre span that may be masked by the deadzone of the OTDR. Launch cable can also be used to minimize deadzones.
