

# Ladder Base

## Product Images

**Product Code: S00-0653**

## Short Description

Ideal for extension ladders and ladders such as the Little Giant range that are often wide at the base. Length 1m x width 25 cm

## Description

Ladder Base is made from rubbers and polymers that provide excellent grip on a range of surfaces.

Designed to stop the ladder from slipping, the Ladder Base is ideal for double and triple

section extension ladders as well as multi purpose ladders such as the Little Giant range that are often wide at the base.

Ladder Base is fabricated from a single piece mold that gives additional strength and longer life.

### **Features**

Reduces chance of movement at the foot of the ladder

Protects the surface on which the ladder would normally stand from damage

Prevents the ladder from sinking into grass or soil

Length: 1 metre

Width: 25 cm
