

Fire Resistant Metal Nail Clips

SSNC7.0 Black Pk 50

Product Images

Product Code: R02-1322

Short Description

For cable up to 7.0mm. These fire resistant clips improve safety by ensuring that cabling will not collapse

in the event of a fire.

Description

For cable up to 7.0mm.

Metal nail fixing solutions provide a quick and simple way of securing cables to meet the requirements of BS7671, which imposes the use of metal fixings to secure wiring systems within the escape routes of buildings.

These fire resistant clips improve safety by ensuring that cabling will not collapse in the event of a fire.

Features

- Designed to secure cables within high temperature environments
- Flex design grips the cables and clamps into position, even in the event of a fire
- Manufactured from stainless steel 430 material.
- Available with white or black PA11 coloured coating, making it discrete when fitted within commercial / building environments
- Suitable for a range of cable sizes, from 4.5mm to 11.0mm diameter
- Quick and easy to apply – simply push the clip over the cables and hammer into position
- Integrated hardened steel nail pre-fitted to clips to ensure a secure fixing to the building fabric (nail dimensions 25mm x 2.5mm)
- Meets the requirements of BS7671, 3rd Amendment 7th Edition
