

Safe-D U-Clip 30 Pk100

Product Images

Product Code: T18-0031

Short Description

Safe-D U-Clip 30 can be used with MMT2 25 x 16mm mini trunking or fitted direct-to-surface.

Description

For use with MMT2 25 x 16mm mini trunking

Safe-D U-clips can be fitted direct-to-surface, or in non-metallic trunking systems.

All can be secured to substrates by shot-fired nails or screw-fixings.

After cables are inserted, tabs can be folded inwardly to safely secure the cables.

They are produced from a specified steel with >1200°C melting point.

The combination of the pliable gauge steel & rounded corner features makes Safe-D U-Clips quick & easy to install.

Dimensions 20mm (L) x 23mm (W) x 8mm (H)

Supplied in a pack of 100
