

Safe-D U-Clip 40 Pk50

Product Images

Product Code: T18-0032

Short Description

For use with MMT3 38 x 16mm, MMT4 38 x 25mm and MMT6 38 x 38mm and mini trunking

Description

Safe-D U-clips can be fitted direct-to-surface, or in non-metallic trunking systems.

All can be secured to substrates by shot-fired nails or screw-fixings.

After cables are inserted, tabs can be folded inwardly to safely secure the cables.

They are produced from a specified steel with >1200°C melting point.

The combination of the pliable gauge steel & rounded corner features makes Safe-D U-Clips quick & easy to install.

For use with MMT3 38 x 16mm, MMT4 38 x 25mm and MMT6 38 x 38mm and mini trunking

Dimensions 20mm (L) x 32mm (W) x 20mm (H)
