

Safe-D U-Clip 50 Pk50

Product Images

Product Code: T18-0033

Short Description

Safe-D U-Clip 50 can be used with MMT5 50 x 25mm mini trunking or fitted direct-to-surface.

Description

For use with MMT5 50 x 25mm mini trunking

Safe-D U-clips can be fitted direct-to-surface, or in non-metallic trunking systems.

All can be secured to substrates by shot-fired nails or screw-fixings.

After cables are inserted, tabs can be folded inwardly to safely secure the cables.

They are produced from a specified steel with >1200°C melting point.

The combination of the pliable gauge steel & rounded corner features makes Safe-D U-Clips quick & easy to install.

Dimensions: 20mm (L) x 47mm (W) x 30mm (H)

Supplied in a pack of 50
