

Soft Grip Filling Knife 25mm

Product Images

Product Code: N72-1546

Short Description

Ideal for inserting filler into cracks or holes, in wood or plaster.

Description

Featuring a stainless steel blade for long-life and resistance to corrosion.

The soft grip handle provides greater comfort and is fitted with a metal end cap that can be used to knock back protruding nails.

Ideal for inserting filler into cracks or holes, in wood or plaster.

The extremely flexible blade produces a smooth finish on all fillers prior to sanding.

Blade Width: 25mm
