

Cable Abrasion Protector No.4 - 33mm x 1m - Pk 10

Product Images

Product Code: S83-1673

Short Description

Reduces abrasion of aerial cables when in contact with poles and hardware fittings, with anchor clamp bail wire and tree branches (tree guard)

Description

Reduces abrasion of aerial cables when in contact with poles and hardware fittings, with anchor clamp bail wire and tree branches (tree guard)

Can be used as a strengthening member and protection for ADSS cables when installed in J Hook Suspension clamps and also for creating a bridge over power cables.

Increases the lifespan of cables on poles in windy zones.

Can be used in maintenance as well as for network building.

UV resistant black PVC sections 2 mm thick in a variety of diameters, spiral formed in the factory

Compliant with the Restriction of Hazardous Substances Directive (RoHS - lead free) as adopted by the European Union

Internal Diameter: 33mm

Length: 1 metre

Supplied in a pack of 10 lengths
